RE: SGS Job #LA48928

Dear Mr. Moore,

The final report for SGS Job LA48928 has been amended from the original. This report replaces in its entirety any previously submitted copy.

The results for all samples are reported using the method detection limits (MDLs). Any concentrations detected between the MDL and reporting limit (RL) are qualified with a "J" for estimated concentration. The changes are included in this revised report.

Sincerely,

HMA

Amy Jackson Environment, Health and Safety Project Manager SGS-Scott
