

Commissioner's Ground Water Resources Management Report

July 2010

Louisiana Department of Natural Resources
Office of Conservation

Commissioner's Ground Water Resources Management Report

Report Objective

The Commissioner's Ground Water Resources Management Report (report) is provided to the Louisiana Ground Water Resources Commission members on a semi-annual basis to update commission members of Louisiana's Office of Conservation accomplishments and vital statistics pursuant to the agency's oversight and management of ground water use in Louisiana.

Summary of Contents

The July 2010 report includes an update on the agency's efforts to meet the goals of the Ground Water Resources Program (Program) performance indicators which are reported on a quarterly basis to the Louisiana Legislature. Performance indicator statistics reported herein include a count of the number of complete water well notifications submitted to the agency and the number of water well notification evaluations that were timely completed by the agency during each quarter of Fiscal Year 2009 / 2010. This report also provides an update to enforcement activities mandated by statutory law under R.S. 38:3097.3(F) and implemented pursuant to Ground Water Management requirements under LAC 43:VI.Subpart 1, as amended. An update on Sparta aquifer Area of Ground Water Concern (AGC) monthly ground water use reporting required of non-exempt water well owners located in the three AGC's is provided. Statistics on water use for Haynesville Shale natural gas well development operations are provided herein. Information on current ground water management public education and outreach activities as well as other related agency accomplishments is also provided.

Executive Summary

July 2010

This report represents the Office of Conservation's (Conservation) effort to provide a periodic, standardized means of disseminating information relative to the accomplishments of, and vital statistics on, the agency's oversight and management of ground water use in Louisiana. It is intended to provide the members of the Louisiana Ground Water Resources Commission (Commission) with current updates of the agency's activities in managing ground water resources as mandated by Louisiana statutory law.

The July 2010 report represents accomplishments and statistics for the past fiscal year, i.e. July 1, 2009 to June 30, 2010, and is the second report provided to Commission members. As such, the Ground Water Resources Program Performance Indicator information provided herein represents a full year of reporting for Conservation's fiscal year beginning on July 1, 2009 through June 30, 2010 and demonstrates that the projected objectives have been met.

ACT No. 581 of 2008 (Act 581), effective August 15, 2008, provided the Office of Conservation the authority to issue compliance orders and civil penalties for violations of laws, regulations and orders under the agency's authority. Subsequent to passage of ACT 581, Conservation implemented an aggressive statewide compliance audit process which is currently progressing as scheduled. This report includes a listing of agency enforcement actions issued to non-compliant water well owners based on findings of the statewide audit from July 1, 2009 through June 30, 2010.

Significant progress has been made as a result of the agency's aggressive enforcement activity for well owner water well notification and ground water use reporting for non-exempt wells located in the Sparta aquifer Areas of Ground Water Concern (AGCs). Ground water use data for nearly 100% of all non-exempt registered water wells located within the three AGCs is currently being provided to Conservation as required by AGC reporting requirements. This report includes tables of ground water use data submitted to the agency from January 2009 to April 2010. This data will serve as baseline information for future AGC ground water use

comparison and statistical analysis purposes to monitor ground water use trends and aid in supporting future water policy, as deemed necessary.

Effective October 2009, Conservation required Haynesville Shale natural gas operators to begin reporting source and volume information for all water used during the hydraulic fracture stimulation of shale formations for natural gas production. Included in this report are water use graphs and statistics showing surface and ground water use for Haynesville Shale stimulation operations in Northwest Louisiana. Water use reporting for shale development activities will provide the agency with valuable objective information in our effort to manage the ground water resources of Northwest Louisiana.

During the Fiscal Year 2009 / 2010, the agency continued implementation of an aggressive public education and outreach effort sounding out on both ground water conservation and agency implementation of regulations to manage and preserve aquifer sustainability throughout the state. Other accomplishments of significant relevance to the management of ground water resources are also provided herein. The information provided on these topics in this report reflects the agency's continued dedication and commitment to fulfilling its statutory mandate and implementing ground water regulations toward the prudent management of Louisiana's ground water resources during Fiscal Year 2009 / 2010.

The next report is anticipated to be completed in January 2011 and will report on Conservation's activities on the items listed above from July 1, 2010 to December 31, 2010.

2009-2010 PERFORMANCE INDICATOR
4th Quarter - 4/01/2010 thru 6/30/2010
Office of Conservation (432)
Program B-Public Safety
Objective No. 9/ Performance Indicator No. 1

Percentage of New Registered Ground Water Wells Acted Upon within Thirty
(30) Days

Contact Persons: Gary Snellgrove (342-7222) or Jeffrey Jones (342-5562)

For the above referenced reporting period, a total of **one hundred sixty-one (161)** complete prior notifications were received, **of which one hundred sixty-one (161)** were acted upon within thirty days, indicating **one hundred percent (100%)** of the complete new water well registration forms being acted upon within 30 days.

For the Fourth Quarter a cumulative total of **six hundred eighty-four (684)** complete prior notifications have been received, **of which six hundred eighty-four (684) have been acted upon, resulting in a cumulative percentage of one hundred percent (100%)** of the complete new water well registration forms being acted upon within thirty days.

Attached is a spreadsheet which reflects the documentation necessary to verify the **100%** of complete new ground water well notification forms acted upon within thirty (30) days of receipt reported during the Fourth Quarter of FY 2009/2010.

2009-2010 PERFORMANCE INDICATOR
4th Quarter - 4/01/2010 thru 6/30/2010
Office of Conservation (432)
Program B-Public Safety
Objective No. 9 / Performance Indicator No. 2

Number of Complete Prior Notifications of New Ground Water Wells Received

For the above referenced reporting period, **one hundred sixty-one (161)** new water well prior notification forms were received for an **annual cumulative total of six hundred eighty-four (684)** for this Performance Indicator, as follows:

<u>Cumulative</u>	<u>1st</u>	<u>2nd</u>	<u>3rd</u>	<u>4th</u>	
<u>PERFORMANCE INDICATOR NAME:</u>	<u>Qtr.</u>	<u>Qtr.</u>	<u>Qtr.</u>	<u>Qtr.</u>	<u>Total</u>
No. of prior notifications of new ground water wells	170	191	162	161	684

Attached is a spreadsheet, which reflects the documentation necessary to verify the prior notifications of **one hundred sixty-one (161)** new ground water wells reported during the Fourth Quarter of FY 2009/2010.

Previously reported values for the 1st, 2nd and 3rd quarters of FY 2009/2010 have been revised due to a change in the method of counting forms received by the agency. Effective January 2010, the method used to count new ground water well forms for this performance indicator changed from the date that a form is received by the agency to the date that a form is deemed both administratively and technically complete, thus acted upon, after the form is received by the agency.

Enforcement Activity

Groundwater Enforcement - Compliance Orders July 1, 2009 - June 30, 2010

Well Use Type	Parish	Order Date	Well Use Count	Well Owner Name Current Owner (Original Owner)	Status	Compliance Issue/Reason	Compliance Order No.
Fire Protection	Richland	6/25/2010	3	Richland Parish Sheriff Dept	OPEN	Failure to Register Well with DNR.	2010-GW784
Fire Protection	St. Tammany	5/21/2010	1	St. Tammany Fire District #13	OPEN	Failure to Register Well with DNR.	2010-GW580
Heat Pump	Vermilion	12/3/2009	1	Sonia Guidry	CLOSED	Failure to Register Well with DNR.	2009-GW526
Industrial	Acadia	9/11/2009	2	Cross Tex Energy Services	CLOSED	Failure to Register Well with DNR.	2009-GW560
Industrial	Acadia	9/11/2009	1	Duane Breaux	OPEN	Failure to Register Well with DNR.	2009-GW561
Industrial	Bienville	11/6/2009	1	Bear Creek Services, LLC	CLOSED	Failure to Register Well with DNR.	2009-GW820
Industrial	Bienville	11/6/2009	1	Exxon Mobil Refining & Supply Co.	DISREGARD	Failure to Register Well with DNR.	2009-GW833
Industrial	East Baton Rouge	4/8/2010	1	Exxon Mobil Refinery	Disregard	Failure to Register Well with DNR.	2010-GW154
Industrial	East Feliciana	3/12/2010	1	Bengal Pipeline Co.	OPEN	Failure to Register Well with DNR.	2010-GW127
Industrial	Lafayette	9/15/2009	1	Coil Tubing Services	CLOSED	Failure to Register Well with DNR.	2009-GW636
Industrial	Lafayette	9/15/2009	1	Cutting Edge	OPEN	Failure to Register Well with DNR.	2009-GW640
Industrial	Lafayette	9/15/2009	1	Devin International	OPEN	Failure to Register Well with DNR.	2009-GW643
Industrial	Lafayette	9/15/2009	1	Domingues Morvant Ready Mix	OPEN	Failure to Register Well with DNR.	2009-GW644
Industrial	Lafayette	10/16/2009	1	Mobile Mix Concrete	CLOSED	Failure to Register Well with DNR.	2009-GW668
Industrial	Livingston	3/26/2010	1	Griffin Industries	OPEN	Failure to Register Well with DNR.	2010-GW175
Industrial	Morehouse	2/10/2010	1	TXI Perryville Aggregate	OPEN	Failure to Register Well with DNR.	2010-GW069
Industrial	St. Helena	3/26/2010	1	Texas Industries	OPEN	Failure to Register Well with DNR.	2010-GW197
Industrial	St. Tammany	5/21/2010	1	Lafarge Concrete	OPEN	Failure to Register Well with DNR.	2010-GW481
Industrial	St. Tammany	5/21/2010	2	Parish Concrete	OPEN	Failure to Register Well with DNR.	2010-GW530
Industrial	Tangipahoa	3/26/2010	2	Broadmoore, LLC	OPEN	Failure to Register Well with DNR.	2010-GW211
Industrial	Tangipahoa	3/26/2010	1	Daley Sand & Gravel	OPEN	Failure to Register Well with DNR.	2010-GW219
Industrial	Tangipahoa	3/26/2010	1	M. J. Gillman	OPEN	Failure to Register Well with DNR.	2010-GW249
Industrial	Tangipahoa	3/26/2010	2	Mike Smith Forestry	OPEN	Failure to Register Well with DNR.	2010-GW255
Industrial	Washington	3/26/2010	2	Denny Denman	OPEN	Failure to Register Well with DNR.	2010-GW300
Industrial	Washington	3/26/2010	1	Lanny Crowe	OPEN	Failure to Register Well with DNR.	2010-GW315
Industrial	Washington	3/26/2010	1	MGR Mfg.	OPEN	Failure to Register Well with DNR.	2010-GW318
Industrial	Webster	11/13/2009	1	Hollingsworth Construction	CLOSED	Failure to Register Well with DNR.	2009-GW876
Industrial	Webster	11/13/2009	1	Regency Gas Services	CLOSED	Failure to Register Well with DNR.	2009-GW888
Industrial	Calcasieu	7/20/2009	1	Calcasieu Refining Co.	CLOSED	Failure to Register Well with DNR.	2009-GW296
Industrial	Calcasieu	7/20/2009	2	Petrologistics Olefins, LLC	OPEN	Failure to Register Well with DNR.	2009-GW334
Industrial	Calcasieu	7/20/2009	2	PPG Industries	DISREGARD	Failure to Register Well with DNR.	2009-GW336
Industrial	Calcasieu	7/20/2009	1	South Louisiana Cement	OPEN	Failure to Register Well with DNR.	2009-GW339
Industrial	Calcasieu	7/20/2009	1	Westlake Polymer	DISREGARD	Failure to Register Well with DNR.	2009-GW349
Industrial	Calcasieu	8/21/2009	3	Port Aggregates Inc	OPEN	Failure to Register Well with DNR.	2009-GW335
Industrial	Jeff Davis	7/30/2009	1	Celunol	DISREGARD	Failure to Register Well with DNR.	2009-GW367
Industrial	Jeff Davis	8/21/2009	1	A New Rock	CLOSED	Failure to Register Well with DNR.	2009-GW359
Industrial	Ouachita	10/7/2009	1	Sunshine Oil and Storage	OPEN	Failure to Submit Usage Reports.	2009-GW061
Industrial	St. Landry	10/8/2009	1	Leon LaHaye	CLOSED	Failure to Register Well with DNR.	2009-GW786
Industrial	St. Landry	10/8/2009	1	McGowan Working Partners	CLOSED	Failure to Register Well with DNR.	2009-GW787
Industrial	St. Landry	10/8/2009	1	Merards Air & Heat	OPEN	Failure to Register Well with DNR.	2009-GW788

Groundwater Enforcement - Compliance Orders July 1, 2009 - June 30, 2010

Well Use Type	Parish	Order Date	Well Use Count	Well Owner Name Current Owner (Original Owner)	Status	Compliance Issue/Reason	Compliance Order No.
Industrial	Vermilion	9/11/2009	1	Bob Romero	CLOSED	Failure to Register Well with DNR.	2009-GW428

Appendix C

Sparta AGC

Ground Water Use

Sparta AGC Ground Water Use

Monthly Use Data Report

Monthly ground water use data is required to be submitted to the Office of Conservation by order of the Commissioner by owners of all water wells located within the three Sparta aquifer Areas of Ground Water Concern, except for domestic water wells. As a result of aggressive compliance auditing and agency enforcement actions, ground water use data has been received for nearly 100% of all water wells required to report to the agency from January 2009 to April 2010. This report includes all ground water use data received from January 2009 to April 2010 for two reasons: 1) compliance with monthly reporting enforcement actions issued by the agency in early 2009 was not complete and 2) significant changes were made on the report form to improve the accuracy of the data being reported to the agency, effective January 2009. The data received during 2009 will serve as baseline information for future AGC ground water use comparison and statistical analysis purposes to monitor AGC ground water trends and aid in supporting future water policy as deemed necessary.

Enforcement Action for Non-Compliance

Compliance Orders have been issued to water well owners of four water wells that ground water use reports were not provided at the time of printing of this report.

Haynesville Shale Water Use Statistics

Haynesville Shale Water Use Statistics

In order to monitor and evaluate ground water use during the development of Haynesville Shale natural gas production wells located in Northwest Louisiana, the Office of Conservation required operators permitted to perform hydraulic fracture stimulation operations to report to the agency the volume and source of surface and ground water used during those activities. Water use reporting for hydraulic fractionation stimulation operations became effective on October 2009. Water use reporting for shale development activities will provide the agency with valuable objective information in our effort to manage the ground water resources of Northwest Louisiana.

Haynesville Shale Natural Gas Well Development Drilling and Stimulation Operations

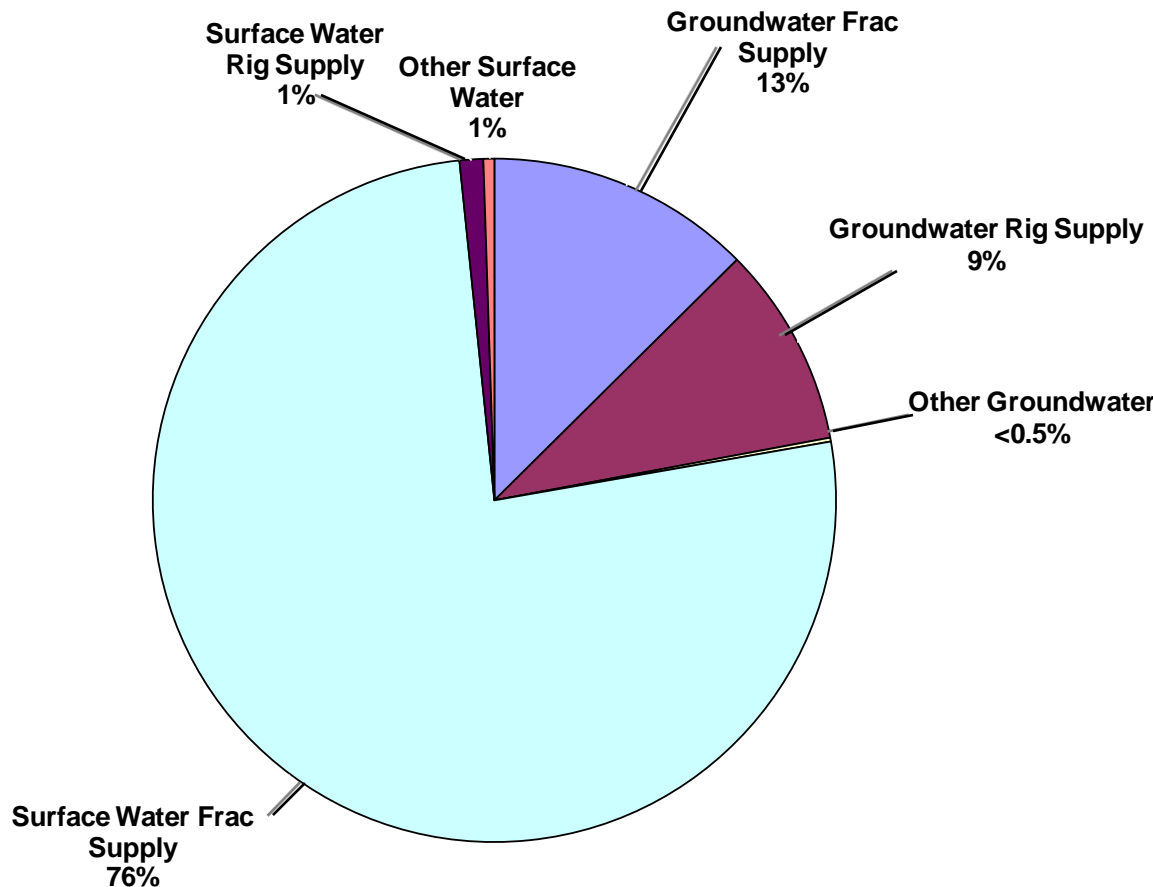

Reported Usage from 10/1/2009 to 7/14/2010

Water Usage Data for 423 Haynesville Shale Natural Gas Wells

Source	Volume (Gallons)
Frac Groundwater	242,873,923
Frac Surface Water	1,471,054,979
Drilling Rig Groundwater Supply	183,496,684
Drilling Rig Surface Water Supply	19,264,034
Other Groundwater	3,534,331
Other Surface Water	10,001,189

Water Stats

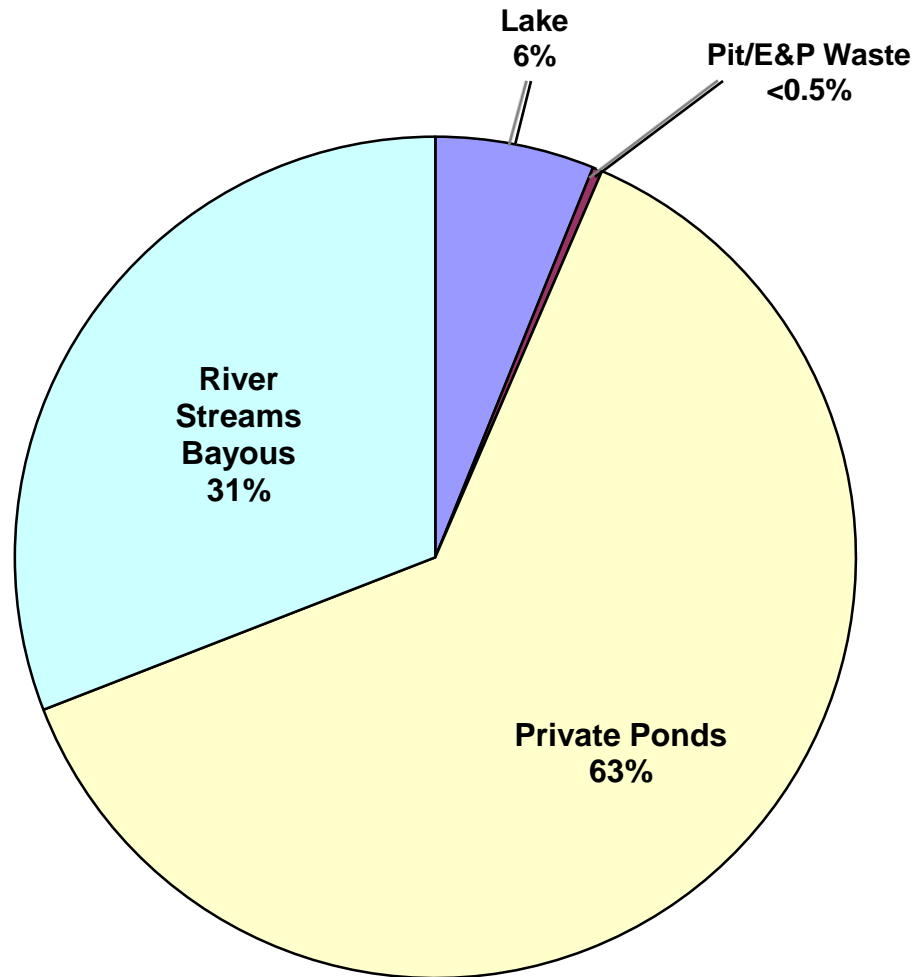

Frac Stages	3737
Total Frac Water Used (gallons)	1,713,928,902
Volume per Frac Stage(gallons)	458,637
Average Frac Stages per Well	9.2
Average Water Use per Well	4,568,683
Average Frac Water Use per Well	4,051,841

Haynesville Shale Natural Gas Well Development Drilling and Stimulation Operations

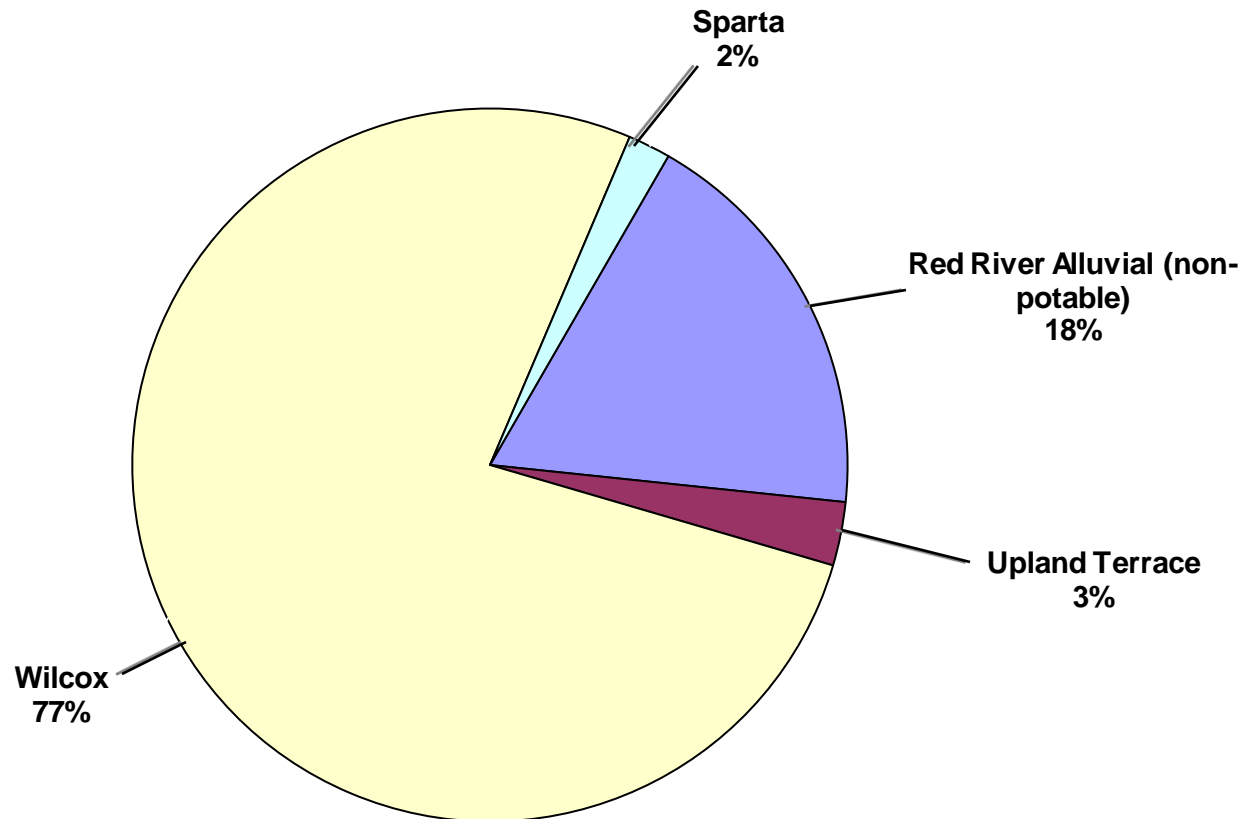

Surface Water Source
7/14/2010

Note: River/stream include Toledo Bend Reservoir, as well as unnamed creeks and bayous

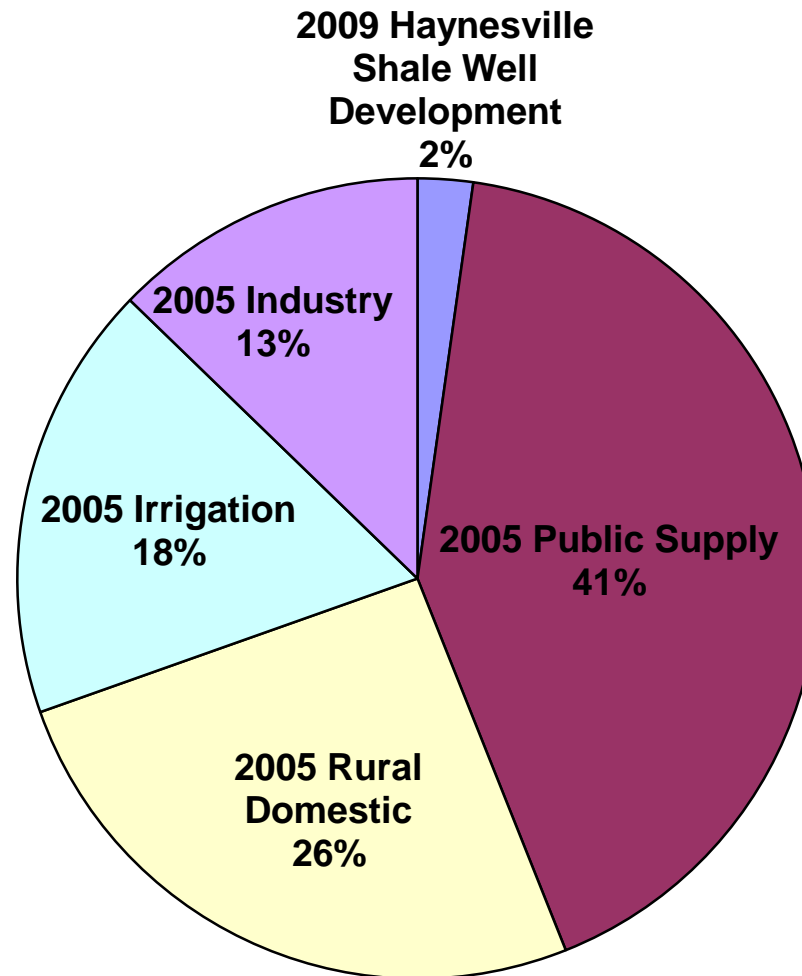

Haynesville Shale Well Development Reported Usage from 10/1/2009 to 7/14/2010 % Groundwater Usage by Aquifer

Note: Non-potable means that the water does not meet drinking water standards.

Wilcox Water Use Comparison

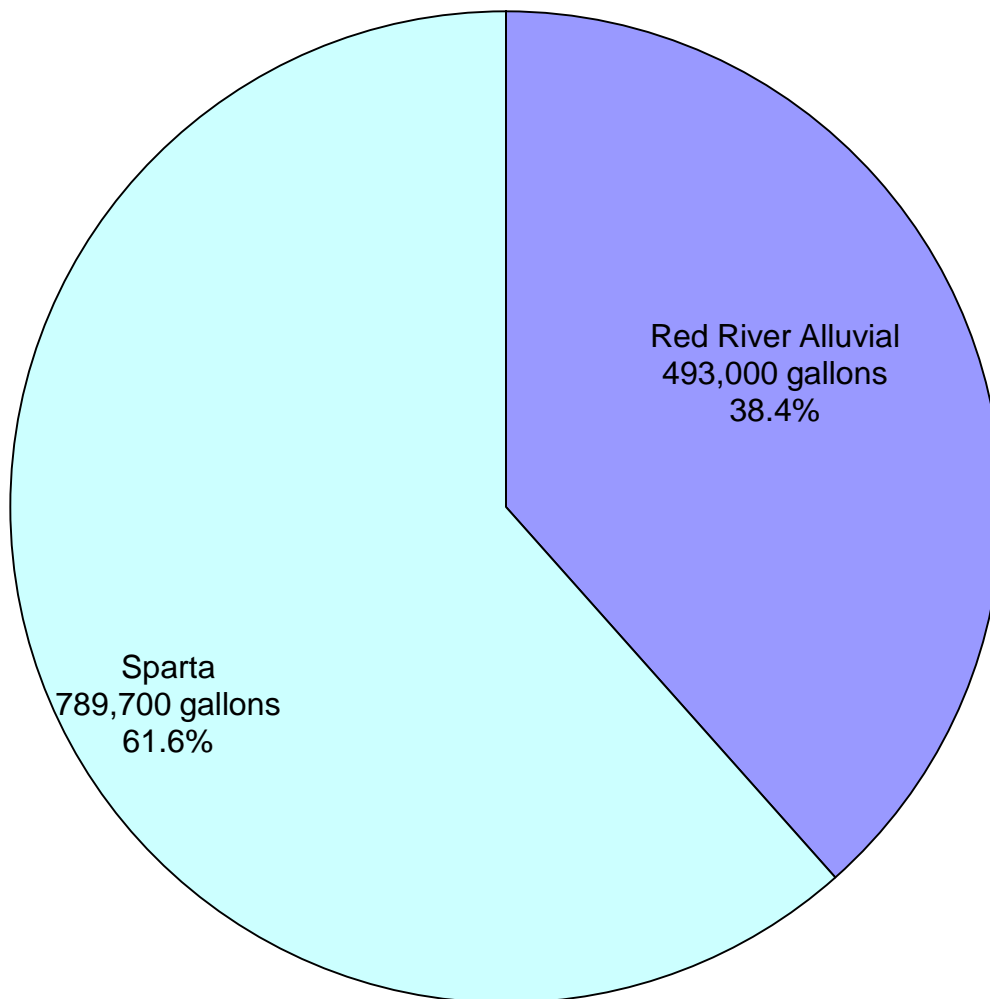

Note: In 2009, 64% of oil and gas wells reporting water usage in their work history used water wells in the Wilcox aquifer. There were 292 gas wells completed in 2009. The average water use of a Haynesville Shale Wilcox water well is 818,340 gallons per well. Net wells using water from the Wilcox aquifer: $64\% \times 292 = 187$ wells. Net Water Use: $(187 \text{ wells} \times 818,340 \text{ gallons of water per well}) / 365 \text{ days} \approx 419,000 \text{ gallons/day}$

2005 Irrigation percentage includes general irrigation, rice irrigation, livestock and aquaculture usage

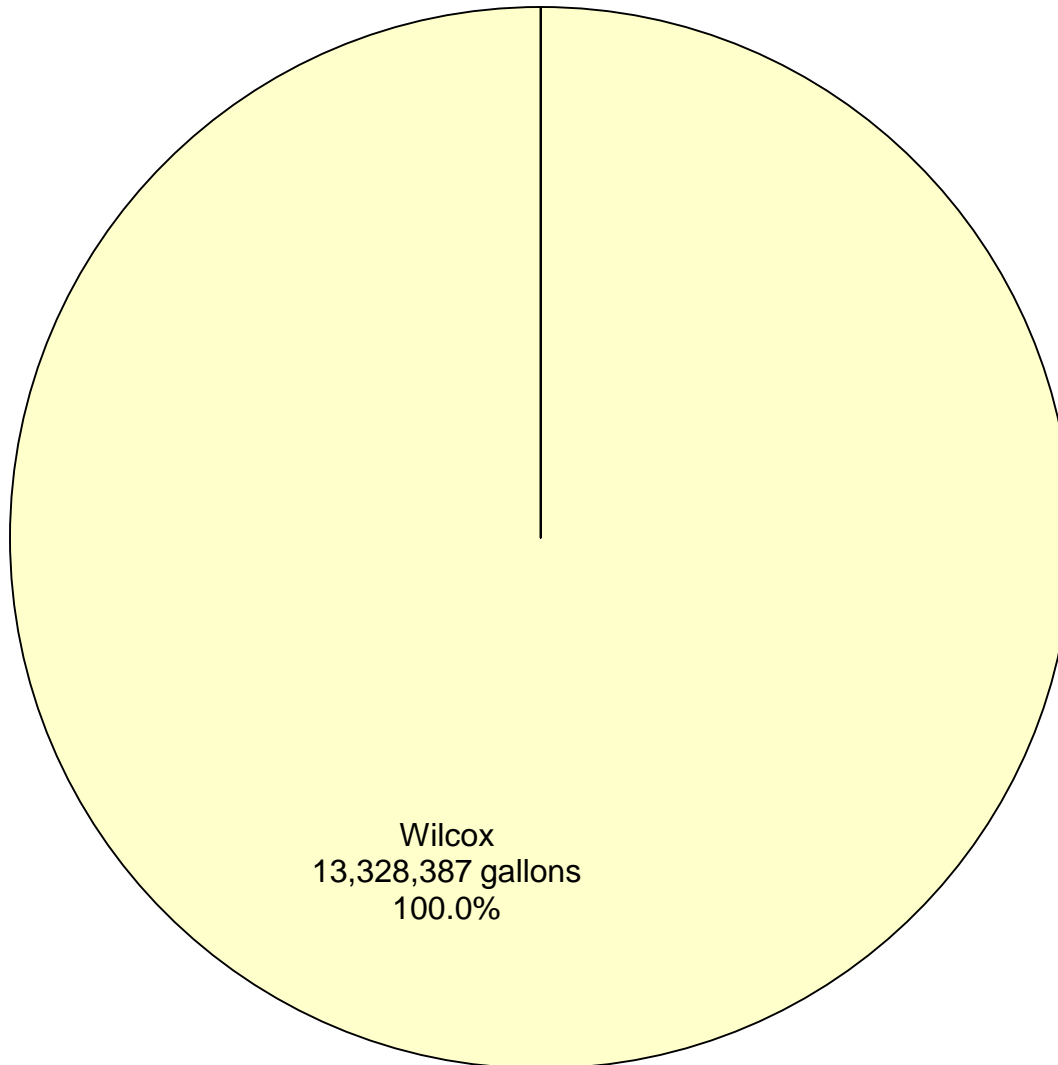

Webster Parish Ground Water Usage

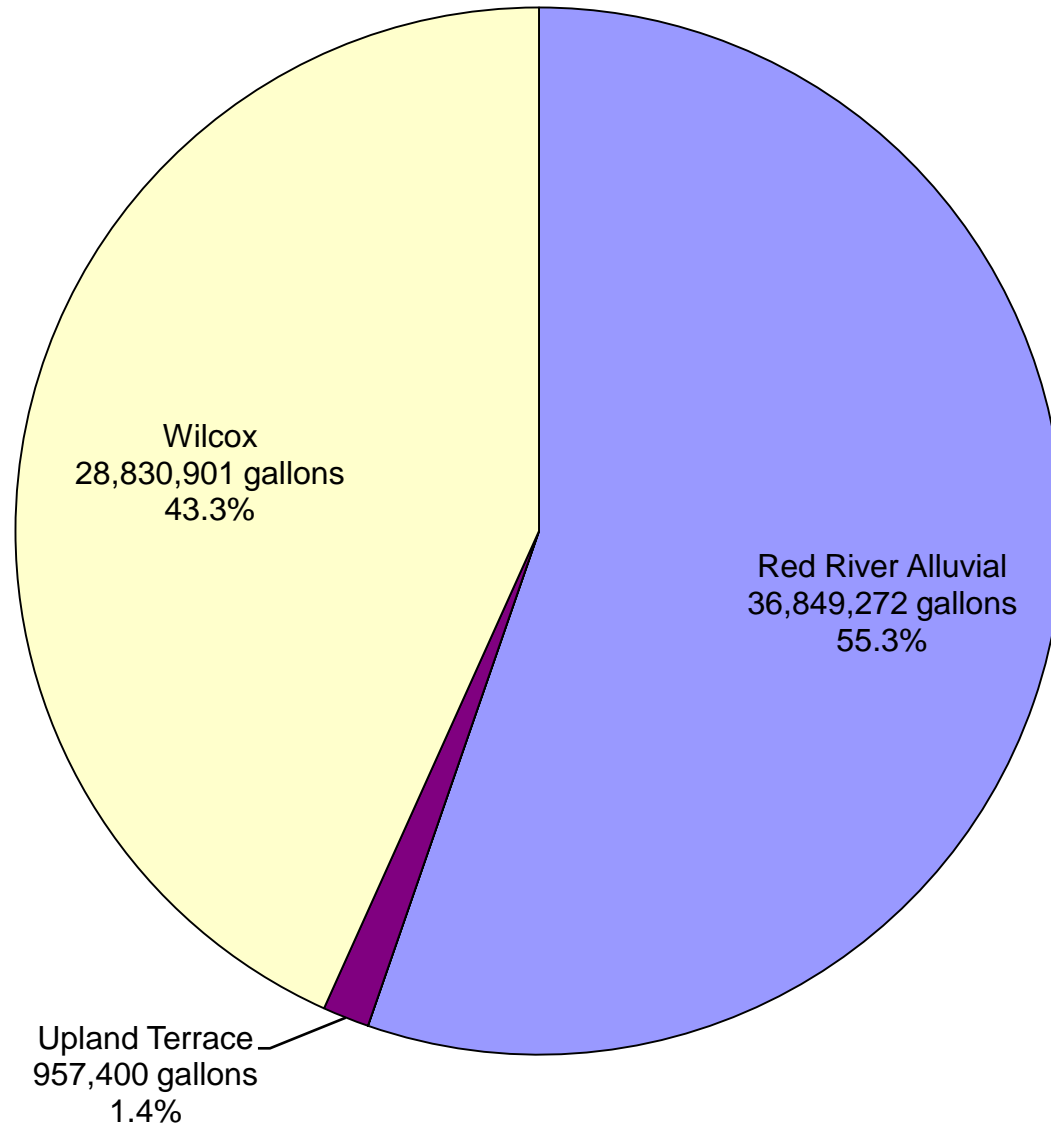

Sabine Parish Ground Water Usage

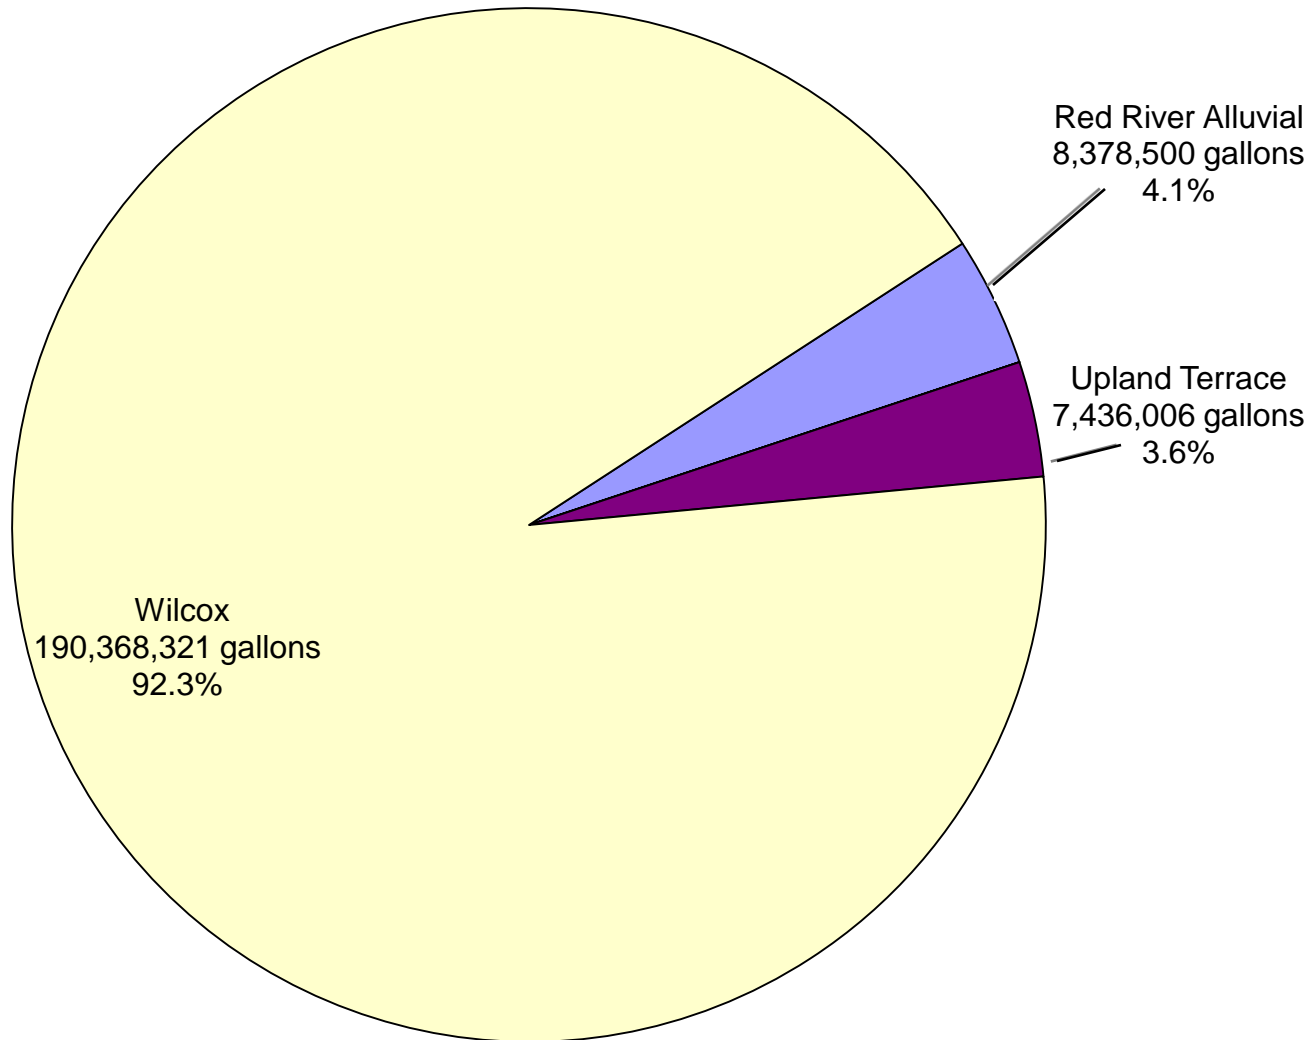

Red River Parish Ground Water Usage

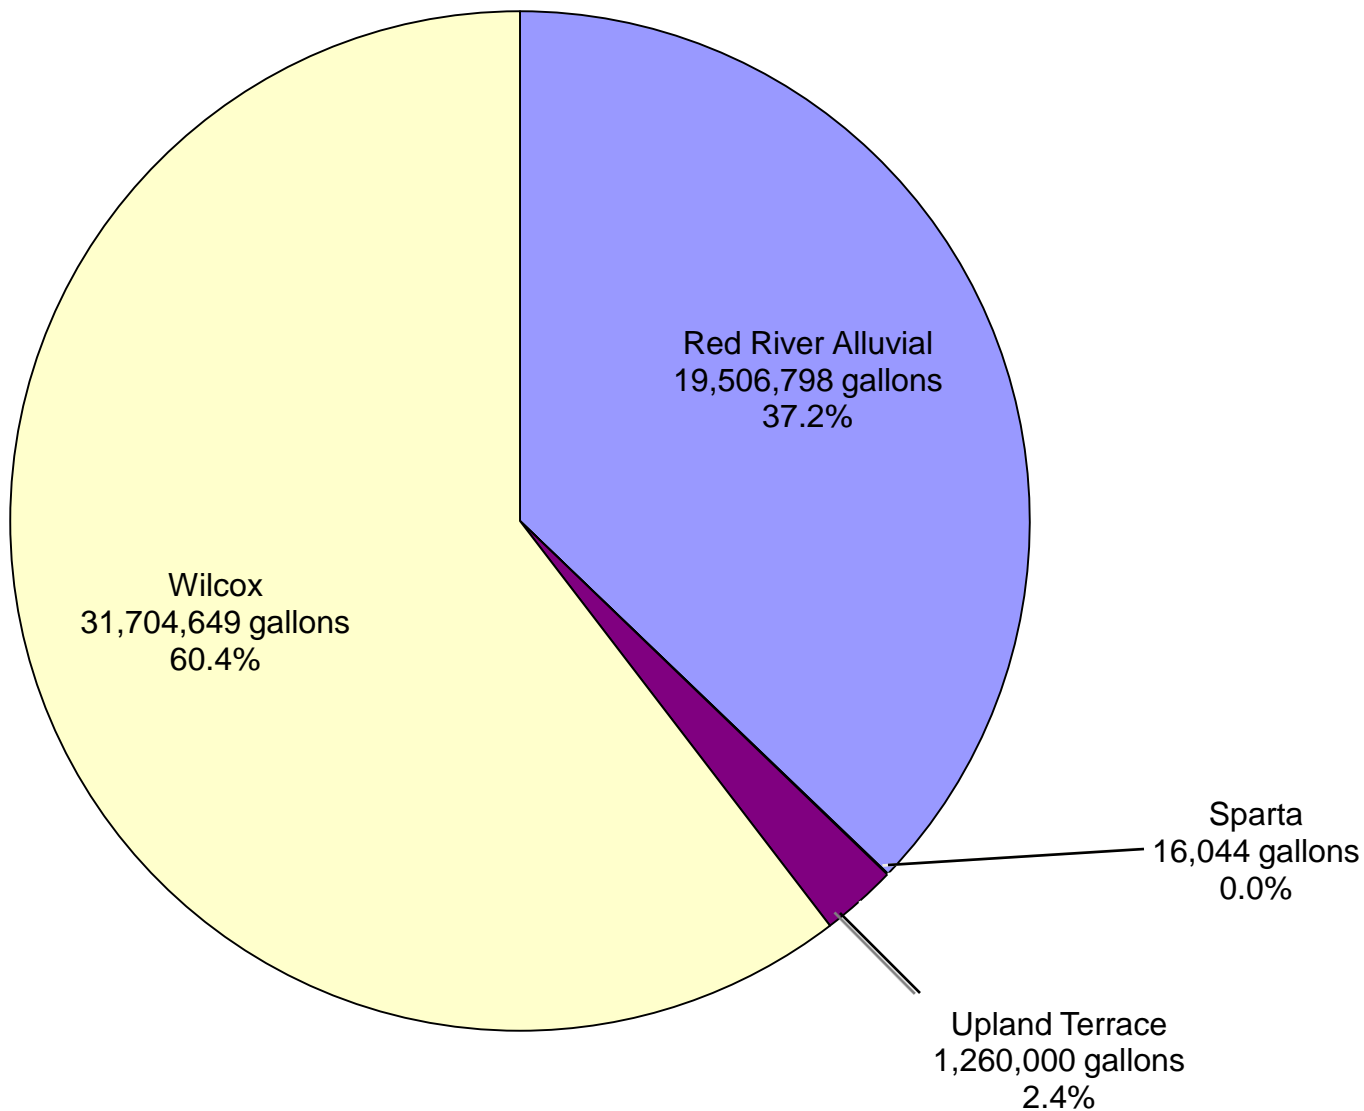

DeSoto Parish Ground Water Usage

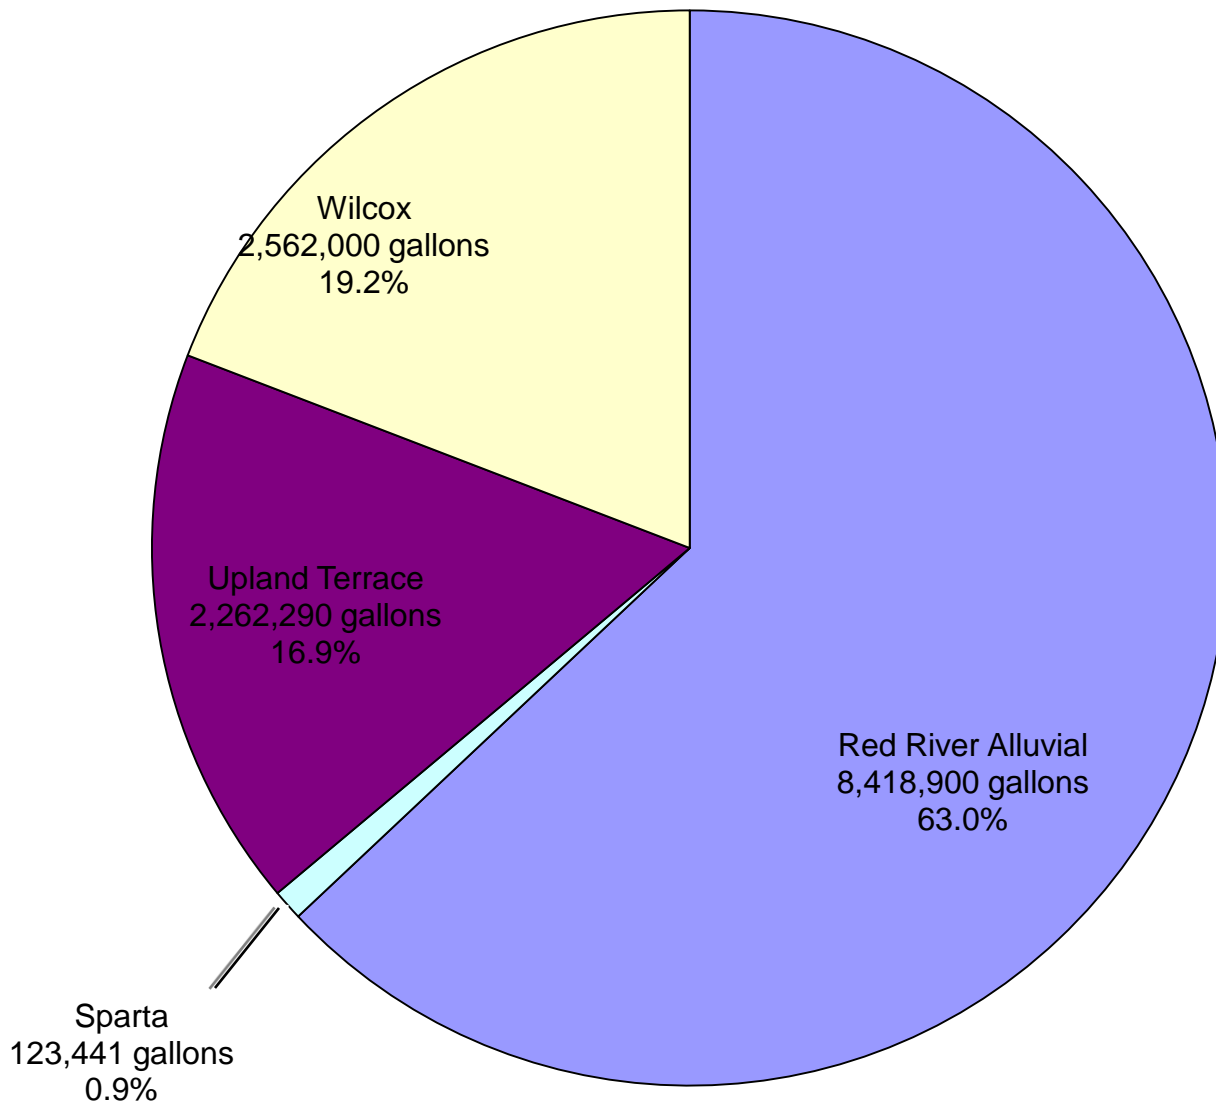

Caddo Parish Ground Water Usage

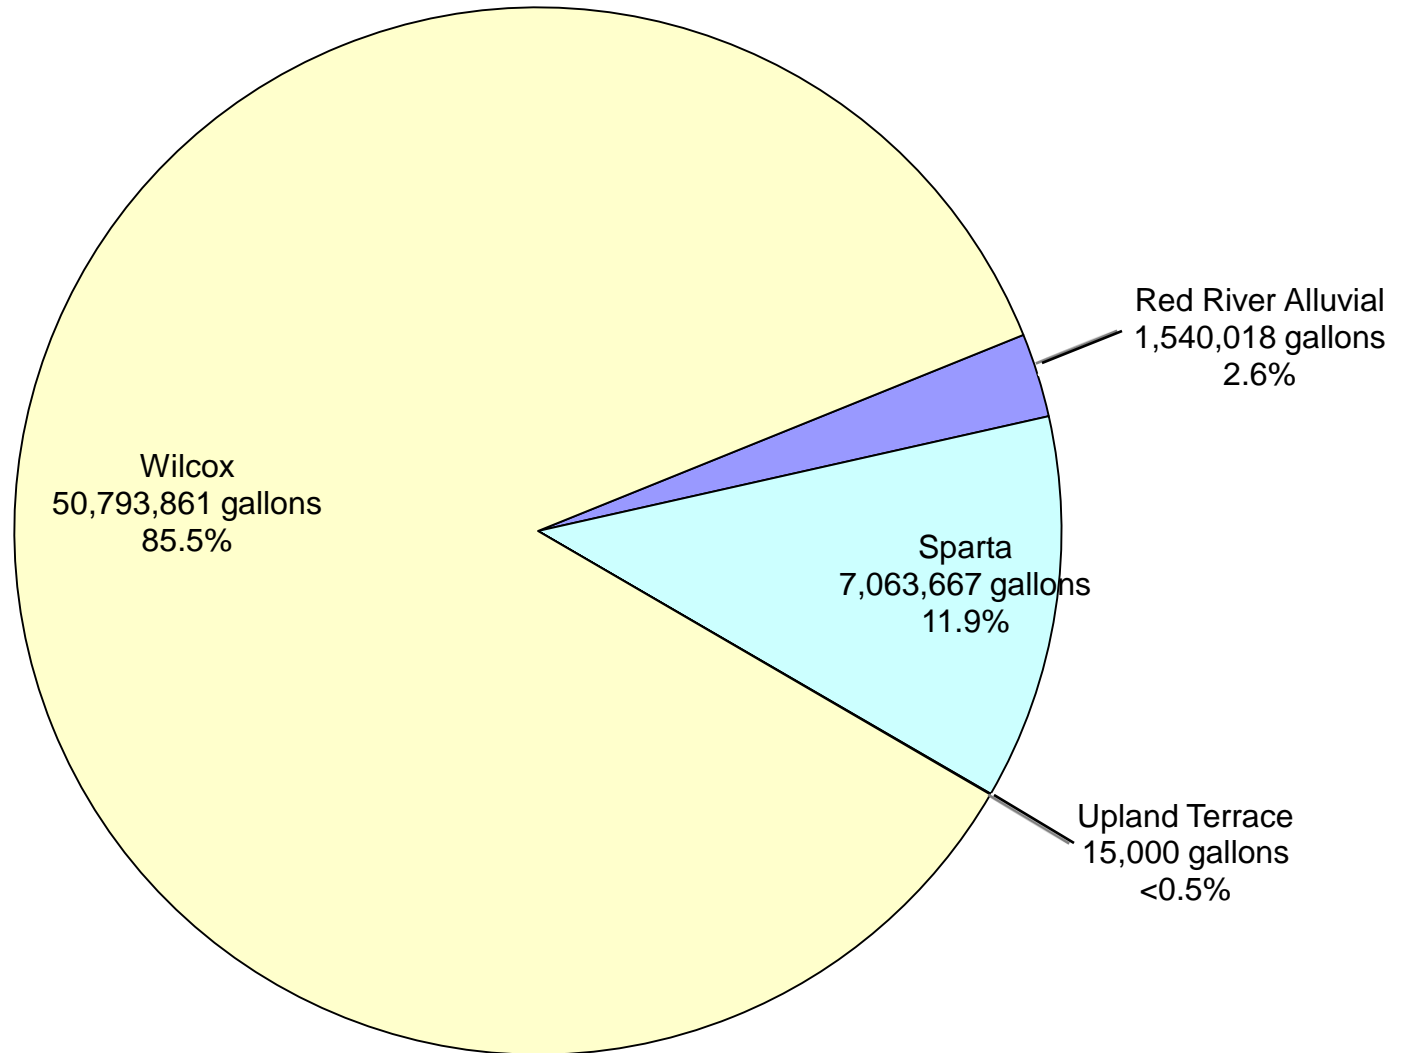

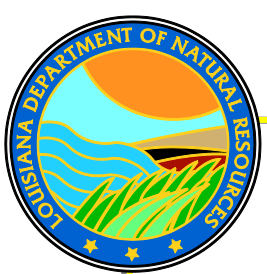

Bossier Parish Ground Water Usage

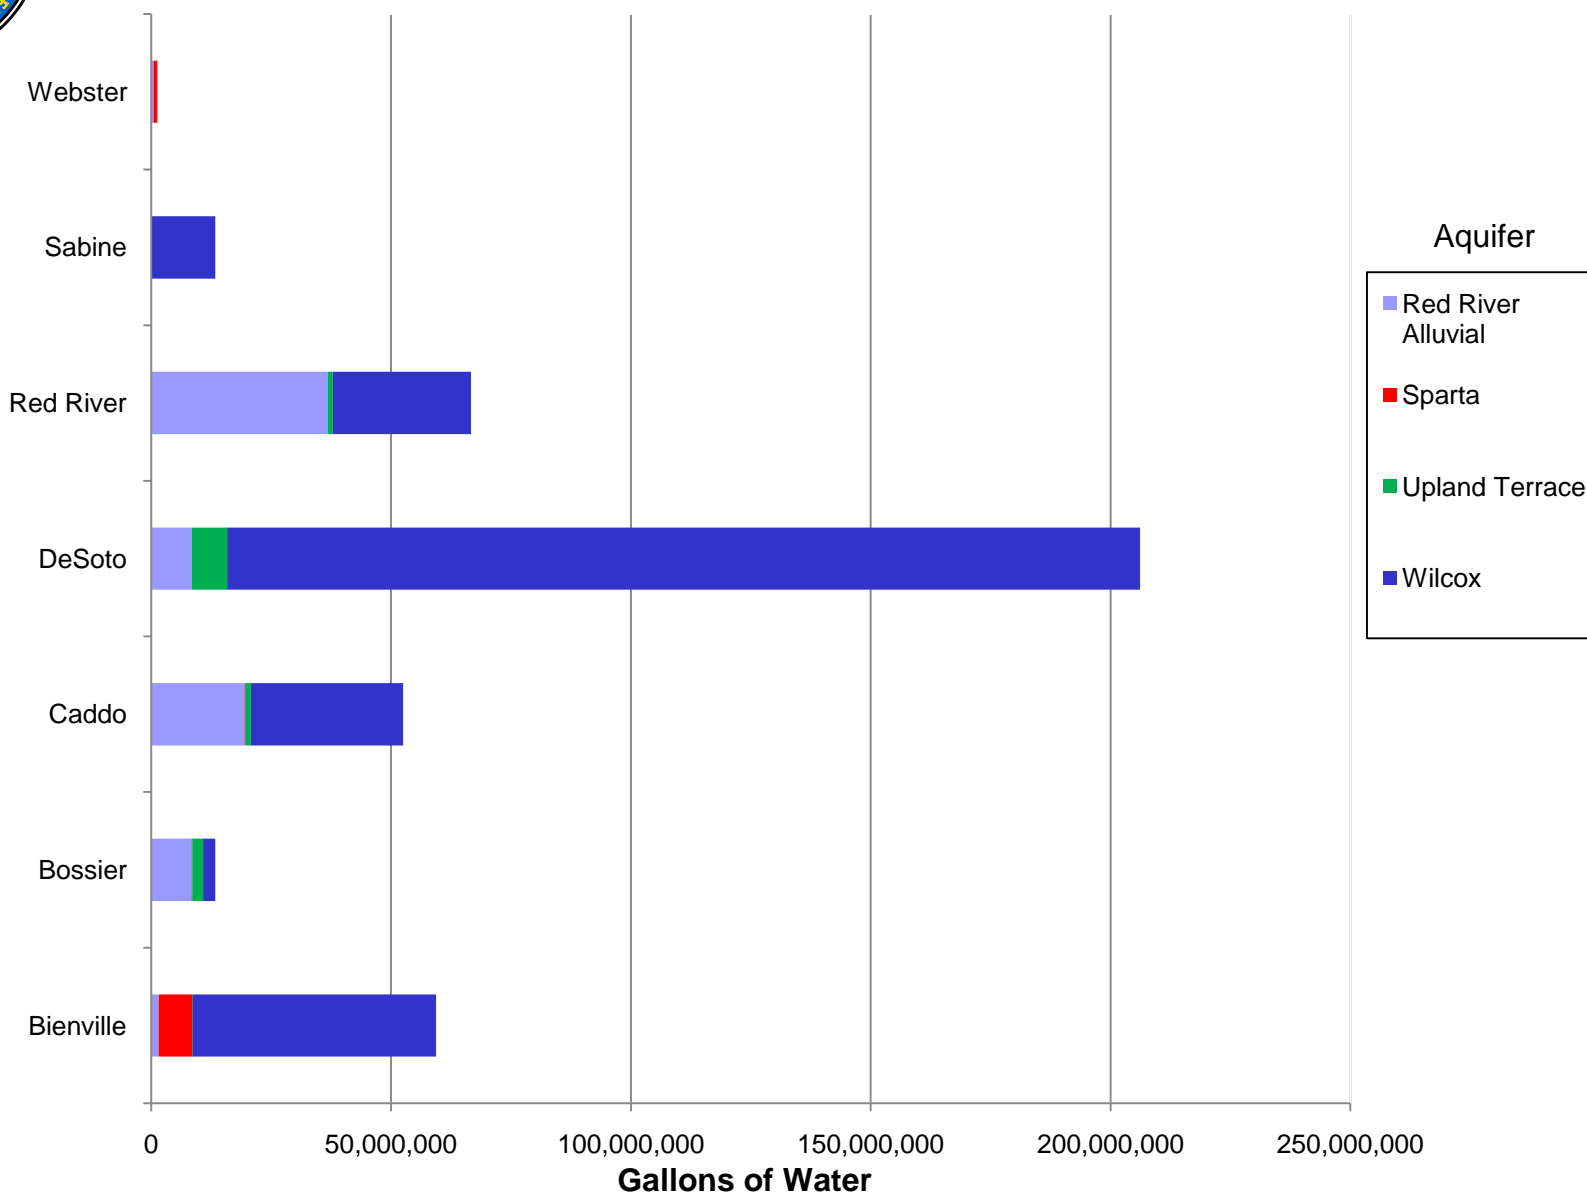

Bienville Parish Ground Water Usage

Total Ground Water Usage by Parish

Reported Usage from 10/1/2009 to 7/14/2010

Appendix E

Public Education and Outreach

**Public Education and Outreach Accomplishments
Groundwater Resources Management Program
July 2009 to June 2010**

July 2009

Staff presented Ground Water Resources Program materials at the Ruston Farmers Market “Sparta Awareness Day” campaign on July 11, 2009.

Staff participated in the Louisiana Rural Water Association Annual Training and Conference held in Alexandria on July 13-16, 2009. An informational booth was set up and staffed to provide information concerning water well notification requirements and the importance of water conservation and to answer any questions. In addition, a continual showing of the water conservation video, “Our Water ... Our Lives” was made. During the conference, staff accepted an award on behalf of Secretary Angelle.

As part of the DNR Geaux Team effort, staff presented program materials at the Natchitoches “Folk Festival” on July 18, 2009.

On July 23, 2009, DNR issued a press release to announce that the Louisiana Office of Conservation is developing new rules allowing for the limited use of waste water from oil and natural gas exploration and production operations for drilling operations in the Haynesville Shale area. The proposed new rules would allow, with certain limitations, the one-time use of such waste water for the process known as hydraulic fracturing, or “fracing,” in the Haynesville Shale natural gas formation.

During July 2009, the first semi-annual “Commissioner’s Ground Water Resources Management Report” was completed and delivered to the members of the Louisiana Ground Water Resources Commission. The report includes a summary of agency activities and information pertaining to program performance indicators, enforcement activity, Sparta aquifer areas of ground water concern, public outreach and education and other accomplishments.

August 2009

On August 5, 2009, Tony Duplechin participated in a meeting of the State Advisory Committee for the Regulation and Control of Water Well Contractors.

On August 20, 2009, staff presented public outreach and education information on ground water well notification regulations at the Vernon Parish Drinking Water Protection Committee meeting held in Leesville, Louisiana.

The Louisiana Ground Water Aquifer Workshop for Ground Water Resources Commission members was held in Baton Rouge, Louisiana at the State Capitol on August 26, 2009. Presenting information on major aquifer systems statewide during the workshop were staff from the Louisiana USGS, LSU and Louisiana Geological Survey.

A meeting of the Louisiana Ground Water Management Advisory Task Force was held in Baton Rouge on August 27, 2009.

A public outreach and education effort focused on public supply water well owners was implemented during August 2009. The Office of Conservation issued a Memorandum to over 950 currently registered community public supply water well owners listed in the DHH, Office of Public Health database. The Memo generally informs owners of DNRs water well notification requirements and our ongoing compliance audit \ enforcement activities, and more specifically encourages owners to voluntarily contact our agency to resolve any outstanding water well notification compliance issues.

September 2009

The DNR ground water conservation video “Our Lives...Our Water” was featured in an article titled “Using Video to Encourage Water Conservation in Louisiana” in the September/October 2009 issue of NOAA’s “*Coastal Services*” magazine.

Staff participated in public outreach activities at the Shrimp & Petroleum Festival in Morgan City on Saturday, September 5, 2009. An informational booth showing the ground water conservation video was set up and staff provided visitors with informational handouts on ground water conservation tips and water well notification requirements.

A meeting of the Groundwater Resources Commission was held at LSUE in Eunice, LA on September 16, 2009.

On September 22, 2009, staff presented ground water regulation and water well notification information to attendees of the Louisiana Oil and Gas: From Sonris to Sunset 2009 Seminar held in New Orleans.

Staff attended meetings of the Sparta Groundwater Conservation District in Ruston, LA and the Caddo Parish Safe Drinking Water Protection Committee in Shreveport. Both meetings were held on Thursday, September 24, 2009.

October 2009

Effective October 1, 2009, Intra-Office Guidance Statement ENV-GS-05 was issued by the Commissioner of Conservation to clarify when the sixty (60) day prior notification requirement of LAC 43:VI.701.B applies to domestic water wells being used for non-domestic purposes.

On October 28, 2009, Environmental Division staff presented public education and outreach information to Natural Resources Conservation Services state regional office staff to inform of the Ground Water Resources Program’s (program) statutory authority, ground water regulations and water well/aquifer evaluation process. The objective to the meeting and presentation was to provide NRCS staff with the tools and knowledge of the program to disseminate program requirements to the agriculture community.

November 2009

On November 3, 2009, Conservation concluded its public outreach campaign with public supply water well owners by issuing a memorandum to all active non-community public supply groundwater well owners informing of DNR water well notification requirements and ongoing compliance audits. Previously, community public supply groundwater well owners were provided similar notification.

On November 12, 2009, Conservation received a resolution from the DeSoto Parish Police Jury informing of their concerns of drilling and fracing operations associated with Haynesville shale activity and requesting the agency take appropriate actions to protect the Wilcox aquifer. On November 24, 2009, Conservation provide a written response informing the police jury of the many actions the agency has initiated and enforced to ensure that the groundwater resources in their area are being protected within the extent granted to Conservation under its statutory authority.

December 2009

On December 2, 2009, a meeting of the Ground Water Resources Commission was held in Mandeville, Louisiana at 11:00 a.m.

On December 10, 2009, Environmental Division staff participated in a public education and outreach effort by presenting information on current Louisiana groundwater issues to attendees of the National Groundwater Association during their annual conference and expo held in New Orleans, Louisiana.

On December 18, 2009, Environmental Division staff participated in a public education effort during a meeting of the Northwest Louisiana Water Resources Committee. Staff provided committee members and attendees information on the recently promulgated regulatory amendment to LAC 43:XIX.Subpart 1.Chapter 3 which allows for temporary use of exploration and production waste fluids as frac water supply for hydraulic stimulation of the Haynesville shale formation for natural gas production.

On December 30, 2009, Commissioner Welsh requested industry groundwater well owners with active water wells located in the Sparta aquifer Areas of Groundwater Concern to voluntarily join in with Flakeboard America, LLC to encourage and facilitate implementation of quantifiable groundwater conservation projects amongst industrial Sparta aquifer groundwater users.

January 2010

On January 12, 2010, a meeting of the Ground Water Management Advisory Task Force was held in Baton Rouge. Staff provided members an update of activity of the agency and Ground Water Resources Commission. No formal decisions were made as a quorum was not obtained.

On January 14 and 15, 2010, Environmental Division staff presented public education and outreach information to members and attendants of the Louisiana Groundwater Association to update water well drillers statewide on the status of the transfer of regulatory authority for water well driller certification and well construction, inspection and enforcement from DOTD to DNR/Office of Conservation. During this effort, staff were able to provide information to, and answer questions from, approximately 250 attendees during the two day event.

On January 14, 2010, staff presented education and outreach information to attendants of the annual Louisiana Association of Conservation Districts held in Baton Rouge. Topics included an update on the transfer of regulatory authority for water well driller certification and well construction, inspection and enforcement from DOTD to DNR/Office of Conservation and water well notification requirements / evaluation procedures for agriculture irrigation wells.

On January 21, 2010, Conservation staff attended a meeting of the Sparta Groundwater Conservation District Commission via phone for the first time.

On January 28, 2010, Conservation staff presented educational information to attendees of the Environmental Regulatory Compliance Conference held in Alexandria, Louisiana. The information presented during the conference focused on Louisiana groundwater law and regulations with an update on the recent legislation transfer DOTD's groundwater authority to the Office of Conservation.

February 2010

On February 3, 2010, a meeting of the Ground Water Resources Commission was held in Shreveport.

March 2010

On March 5 and during the week of March 8, 2010, DNR staff participated in Louisiana Ground Water Awareness Week activities by visiting several elementary schools in Louisiana to provide information on ground water conservation activities.

On March 11, 2010, Conservation staff participated in the discussion at a Senate Environmental Quality public meeting held in Shreveport, Louisiana on the topic of water quality and Haynesville shale activity. Information on the requirements and management practices of the department for ground water resources were provided. Answers to questions from the public and Senate members on the same were provided.

On March 11, 2010, Conservation staff participated in a community meeting held by Representative Barbara Norton in Shreveport, Louisiana on Haynesville shale activities. Staff provided information on agency regulatory activities including management of ground water resources in NW La.

On March 13 and 14, 2010, staff presented information on the Ground Water Resources Program in conjunction with National Groundwater Awareness at the New Orleans Home and Garden Show

On March 23, 2010, a meeting of the Ground Water Management Advisory Task Force was held in Baton Rouge, La. A quorum was established during the meeting and a Chair and Vice Chair were elected by members present.

On March 25, 2010, as part of our ongoing public education and outreach efforts for industrial water well operators located in the three Sparta aquifer Areas of Ground Water Concern, staff met with industry leaders in attendance at the inaugural meeting of the voluntary industry alliance group on ground water conservation matters.

April 2010

A meeting of the Ground Water Resources Commission was held on April 7, 2010 in Baton Rouge.

On April 14, 2010, all licensed water well drillers were provided by mail a general water quality summary for Louisiana alluvial aquifer systems and were asked to provide a copy of the summary to all domestic and public supply water well owners for whom they install a water well screened into the Red River or Mississippi River alluvial aquifer system. The summary advises water well owners to sample and test the groundwater withdrawn from their wells to determine if and what type of water filter system would be necessary to ensure a safe and suitable drinking water supply.

On April 16, 2010, staff presented water well location evaluation information and provided an update on transfer of water well driller and licensing requirements from DOTD to DNR OC to attendees of the Louisiana Ground Water Association continuing education course for licensed water well drillers.

May 2010

A meeting of the Advisory Committee for the Regulation and Control of Water Well Contractors (Drillers) in Louisiana was held in Baton Rouge on May 5, 2010.

On May 20, 2010, a guidance statement was approved by the Office of Conservation and distributed to all registered water well drilling contractors providing clarification as to the necessity and procedure for reporting any observable evidence of the presence of naturally occurring methane or natural gas during water well, geotechnical borehole or ground water monitoring well construction.

A meeting of the Ground Water Management Advisory Task Force was held on May 25, 2010 in Baton Rouge.

June 2010

On June 2, 2010, SSA Consultants concluded contract liaison services for assisting with the development of the Statewide Ground Water Management Plan and issued their final report of findings and conclusions for agency consideration.

On June 8, 2010, Environmental Division staff presented water well notification and evaluation procedure information to attendants of the Capital Area Ground Water Conservation Commission Technical Committee.

On June 15, 2010, Environmental Division staff attended a meeting of the Capital Area Ground Water Conservation Commission.

Appendix F

Other

Accomplishments

Accomplishments from July 2009 to June 2010

July 2009

On July 21, 2009, the agency issued the first civil penalty to a water well owner under the authority of the Commissioner by legislative statutory mandate enacted in 2008. Supplement to Conservation Order No. ENV 2009 – GW054 was issued with an assessment of civil penalty of \$200 to the water well owner for failing to provide monthly ground water usage reports as ordered by the Commission in Conservation Order No. AGC-1-5 for the Sparta aquifer Monroe-West Monroe Area of Ground Water Concern.

On July 28, 2009, Supplement to Conservation Order No. ENV 2009 – GW033 was issued with an assessment of civil penalty of \$200 to a water well owner for failing to provide monthly ground water usage reports as ordered by the Commission in Conservation Order No. AGC-1-5 for the Sparta aquifer Ruston Area of Ground Water Concern.

Section 3 of Act Number 437 passed in the Regular Session of the Louisiana Legislature, 2009, requires the Secretary of DOTD and DNR and the Commissioner of Conservation to enter into a Memorandum of Understanding setting forth the timing and manner of the transition of the responsibilities relating to water wells and water well drillers from DOTD, Office of Public Works, to DNR, Office of Conservation. On July 30, 2009, a draft MOU was mailed to Secretary Ankner from Secretary Angelle and Commissioner Welsh for consideration.

September 2009

On September 15, 2009, Conservation issued notice to operators informing of the revised the oil and gas Well History & Work Resume form (Form WH-1) requiring operators to report the source and volume of water used during drilling, completion, stimulation and workover operations. The information obtained will be beneficial to Ground Water Resources staff in evaluating ground water use associated with development of the Haynesville shale natural gas formation.

October 2009

On October 21, 2009, another draft Memorandum of Understanding (MOU) between DNR and DOTD in accordance with ACT 437 of 2009 was issued with revisions and sent to DOTD for consideration. The deadline for the two departments to complete the MOU is January 1, 2010.

November 2009

On November 2, 2009, the Office of Conservation sent written notice to Mr. Paul Rainwater, Executive Director of the Louisiana Recovery Authority of the results of a water well damage assessment conducted under contract with GEC, Inc. following Hurricanes Katrina and Rita. Conservation informed Mr. Rainwater of its intentions to notify water well owners of wells that were identified during the assessment as posing a risk to the environment. Well owners will be required to provide notice of their intentions to repair or plug and abandon damaged wells under their ownership. On November 23, 2009, Secretary Angelle further requested LRA to consider providing funding for the repair or plugging and abandonment of damaged water wells in the areas impacted by Hurricanes Katrina and Rita.

Conservation Order No. ENV 2009-GW003 was issued to Franks Operating on November 16, 2009 requiring additional information in accordance with LAC 43:VI.705.A for their frac water supply water well notification GWR No. 16-0510 located in DeSoto parish. The order requires Franks Operating to conduct an initial water level measurement upon use of the well for frac water supply purposes and to provide flow rate and water level data to Conservation on a daily basis for additional evaluation purposes.

December 2009

Conservation Order No. ENV 2009-GW005 was issued to Chesapeake Operating on December 10, 2009 for well number GWR 09-0298 for proposed use as frac water supply. The order requires Chesapeake to provide additional information in accordance with LAC 43:VI.705.A to address potential water level decline and impacts to nearby water wells prior to and during the use of the well as a frac water supply well.

Conservation Order No. ENV 2009-GW006 was issued to Black Bayou Storage, LLC on December 11, 2009 requiring additional information in accordance with LAC 43:VI.705.A for their proposed industrial water wells for use in the development of a salt cavern natural gas storage facility located in Cameron parish. The order requires Black Bayou Storage, LLC to provide plans to address potential salt water encroachment, water level decline, subsidence or adverse impacts to nearby water wells.

On December 18, 2009, DNR's Office of Management and Finance provided notification to Ecology and Environment, Inc. that their company had been selected for the contract under RFP No. 2215-10-03 to develop a statewide groundwater management plan.

On December 20, 2009, Environmental Division staff received notification of a natural gas release which occurred during the completion of a drilling rig supply well screened in the Sparta aquifer in Union parish. The water well driller subsequently provided a plug and abandonment report showing that well had been plugged thus preventing any further release of natural gas to the atmosphere. The situation has been forwarded to DNR's public information group in accordance with policy. Environmental Division staff will forward an investigation summary to the Commissioner and DNR public information staff when at the conclusion of the investigation.

On December 30, 2009, Commissioner Welsh, Secretary Angelle and DOTD Secretary Ankner signed a Memorandum of Understanding in accordance with ACT 437 of 2009 to provide for the transition of authority for the regulation of water well driller certification and well construction, registration, inspection and enforcement activities from DOTD to the DNR, Office of Conservation, Environmental Division. The MOU was made effective January 1, 2010.

January 2010

Conservation Order No. ENV 2010-GW002 was issued to Chesapeake Operating on January 26, 2010 for well number GWR 09-0307 for proposed use as frac water supply. The order requires Chesapeake to provide additional information in accordance with LAC 43:VI.705.A to address potential water level decline and impacts to nearby water wells prior to and during the use of the well as a frac water supply well.

Conservation Order No. ENV 2010-GW003 was issued to Indigo Minerals c/o Brammer Engineering (Indigo) on January 26, 2010 for well number GWR 31-0163 for proposed use as frac water supply well located in the Ruston Area of Groundwater Concern. The order requires Indigo to provide additional information in accordance with LAC 43:VI.705.A to address water decline issues prior to and during the use of the well as a frac water supply well.

February 2010

On February 17, 2010, Compliance Order No. ENV 2010 – GW122 was issued to La. Land & Water for failure to submit monthly groundwater use reports in accordance with Office of Conservation Order No. AGC-1-05 for wells owned by La. Land & Water in the Sparta Aquifer Monroe-West Monroe Area of Ground Water Concern.

Conservation Order No. ENV 2010-GW003 was issued to EXCO Production Company, LP on February 5, 2010 for well number GWR 16-0598 for proposed use as a frac water supply well located in close proximity to a domestic water well and in an area where water level decline has been reported to the Office of Conservation. The order requires EXCO to provide additional information in accordance with LAC 43:VI.705.A to address water decline issues prior to and during the use of the well as a frac water supply well.

March 2010

During March 2010, Conservation hired two new employees under the Environmental Division pursuant to the DOTD, DNR and Office of Conservation MOU transferring DOTD ground water program duties to DNR/OC.

On March 25, 2010, a written request to Mr. Patrick Forbes with the Louisiana Recovery Authority was made for funding up to \$383,000 to repair or plug and abandon Hurricane Katrina and Rita damaged water wells.

On March 25, 2010, Commissioner Welsh sent notice to the Office of the Governor appointing Mr. John Adams to serve on the Water Well Drillers Advisory Committee as his designee.

April 2010

On April 8, 2010, Ecology and Environment, Inc., was provided an official “notice to proceed” under the terms of their contract to develop the Statewide Ground Water Management Plan.

June 2010

On June 1, 2010, Secretary Harper authorized submission of a Pre-Application Phase/Project Description/Eligibility Form funding request to the Louisiana Recovery Authority for capping abandoned water wells in flood prone areas of South Louisiana impacted by Hurricanes Katrina and Rita storm surge. The application is currently under review.

On June 1, 2010, Conservation Order No. ENV 2010-GW019 was issued to Indigo Minerals c/o Brammer Engineering (Indigo) in accordance with LAC 43:VI.705.A requiring Indigo to provide additional information for continuation of evaluation for a frac water supply water well (Well No. 31-0167) proposed to be located in the Ruston Area of Ground Water Concern in Lincoln Parish.

On June 3, 2010, Compliance Order No. ENV 2010-GWD001 with a \$1000 civil penalty was issued to Mr. John Glen Breaux of Breaux Bridge, St. Martin Parish for drilling and constructing water wells without obtaining or maintaining a license as required by LAC 56:Part I.307.A and LAC 46:LXXXIX.

On June 3, 2010, Compliance Order No. ENV 2010-GW625 was issued to a well owner for unlicensed water well driller and prior notification violations under LAC 43:VI.701.A and B for two unregistered irrigation wells installed in St. Martin Parish.

On June 17, 2010, Environmental Division staff completed review and evaluation of 6 U. S. Corps of Engineers Section 10 Bayou Pierre, Northwest Louisiana, surface water withdrawal applications forwarded to Conservation from the Department of Natural Resources. DNR was notified by interoffice memo that no adverse impact to the underlying ground water aquifer system or nearby registered water wells is expected due to the proposed surface water withdrawal activities.

On June 22, 2010, Environmental Division staff completed review and evaluation of a Comite River surface water use request from Shell Pipeline Company LP submitted to the Department of Natural Resources and forwarded to Conservation. Environmental Division staff notified DNR by memo that the one-time withdrawal of 515 barrels (21,630 gallons) of surface water from any free flowing section of the Comite River in East Baton Rouge Parish should not cause any adverse impact to the underlying ground water aquifer system or nearby registered or unregistered water wells located in the vicinity of the withdrawal activity.

On June 24, 2010, Conservation Order No. ENV 2010-GW020 was issued to Perryville Gas Storage, LLC (Perryville) in accordance with LAC 43:VI.705.A requiring Perryville to provide additional information for continuation of evaluation for an industrial well proposed to supply groundwater for developing a natural gas storage cavern in Franklin Parish.
