

## Coast-It Notes

CONTACT US

Friday, September 28, 2012

Greetings from the Louisiana Department of Natural Resources Office of Coastal Management.

OCM continues our efforts to update the Needs, Alternatives and Justification (NAJ) requirements for Coastal Use Permit applications. The updates are designed to outline what information the applicant should provide with the application, and the updated are geared towards project type in an effort to expedite the permitting process. OCM has recently approved the Marina and Commercial Development guides, which are available now on our website. Click [here](#) to view the referenced NAJ guides as well as other helpful information about Coastal Use Permitting.

[Local Coastal Programs Newsletter](#) for September 2012 - includes updates on the 2012 Coastal Zone Boundary change, Cypress Tree Plantings along Bayou Segnette, Upcoming Coastal Parish Education Workshop, and more...

--

*Coastit Notes is a publication of the Office of Coastal Management to inform permit applicants, the public and others of events and items that may impact them or their interaction with our office. This e-document is intended to improve customer service and awareness of OCM works and functions and includes announcements from all OCM divisions as issues arise.*
