Memorandum

To: Kenneth Bahlinger, CPRA Project Manager

From: Ben Barnes, CPRA Land Division

RE: Landrights Completion Memo
Mississippi River Long Distance Sediment Pipeline BA-43 EB
Bayou Dupont Marsh and Ridge Creation Project BA-48

The CPRA Land Division has completed landrights necessary to proceed to construction contracting on the above referenced project. The following information has already been provided to you.

<input checked="" type="checkbox"/> <i>Servitude Agreement(s)</i>	<input type="checkbox"/> <i>Mineral Operations Agreement(s)</i>
<input type="checkbox"/> <i>Servitude Amendment (Integrated Coastal Protection)</i>	<input checked="" type="checkbox"/> <i>Grant of Particular Use</i>
<input checked="" type="checkbox"/> <i>Pipeline Notices of Construction</i>	<input type="checkbox"/> <i>State Land Office Letter of No Objection</i>
<input type="checkbox"/> <i>Oil/Gas Operator Agreement(s)</i>	<input type="checkbox"/> <i>Assignment of Rights to Federal Sponsor</i>
<input type="checkbox"/> <i>Memorandum(s) of Agreement</i>	<input type="checkbox"/> <i>Landrights Certification Letter</i>
<input checked="" type="checkbox"/> <i>CWPPRA Section 303(e) approval</i>	<input type="checkbox"/> <i>Other: Corp of Engineers Consent</i>
<input checked="" type="checkbox"/> <i>Right(s) of Entry for Construction</i>	<input type="checkbox"/> <i>Other:</i>

Please note the following information that will need to be included in the contract specifications and/or for future monitoring, operations and maintenance site visits:

I. Landowner notification requirements

- A. The following notice language is in Article II. of the Plaquemines Parish Government (PPG) servitude agreement: "The STATE agrees to give reasonable notice to PPG prior to initiation of access to the said Lands for the purpose of implementing, constructing, operating, modifying, monitoring and maintaining the Project."

- B. The following notice language is in Paragraph 6 of the State Land Office, Division of Administration's Grant of Particular Use and Right of Entry for Construction: "Pursuant to the Permits and Responsibilities clause, you are required to contact the Administrator of the State Land Office or his representative at (225) 342-4575, to notify the Office when construction will commence on the State-owned seashore, State lands and/or State water bottoms."
- C. Contractor agrees to give reasonable notice to GRANTOR(s) prior to initiation of access to the said Lands for the purpose of implementing, constructing, operating, modifying, monitoring and maintaining the Project.

II. General Provisions

- A. Article III. in the agreements includes that should work on (landowner's) Lands be performed via contract, STATE shall ensure that the contractor lists GRANTORS as an additional insured on any policies carried by the contractor, including completed operations coverage.
- B. Article IV. includes that **STATE through its Contractor shall be responsible for repair...such repair shall be to that condition and value which existed immediately prior to Contractor's activities.** STATE shall remove or dispose of all debris associated with construction, operation and maintenance of the Project."
- C. Article X. includes that the **Agreements shall remain in effect for the twenty-five (25) year life of the project** from the date of signature of the State, unless sooner released by STATE.
- D. Article XIII. in some of the agreements include that the State shall provide upon request to Grantor copies of all permits, reports, studies and analysis of all work performed by the State on the property, including all filings with and reports to any governmental authority.
- E. The Contractor shall add the landowners listed above as additional insureds. It is also agreed and understood that the Contractor will at all times indemnify and hold harmless all landowners from and against any and all claims, demands, causes of action, judgments, liabilities, and expense of every nature, including attorney's fees, by reason of personal injury, death (including but not limited to injuries to and death of employees of the landowners and the Contractor's employees), or damage to property, (including environmental) which arises out of, results from, or is in any manner related to, directly or indirectly, any operations or acts hereunder, or to the exercise of your rights hereunder, or to your presence upon or use of the landowners' premises above referred to, or to the

use or existence of your facilities on such premises. The indemnity provisions of this paragraph shall not apply if any such injury, death, damage, liability claim, or cause of action is caused by the negligence of the landowners, their employees, agents, or representatives.

Additional Special Conditions in Agreements

- A. (River Rest, LLC, Wildlife Lands, LLC) Should work on said Lands be performed via contract, STATE shall ensure that all policies of insurance provided by each contractor and subcontractor pursuant to Section III of the Agreement are primary and non-contributory and shall name Grantor as an additional insured using ISO Commercial General Liability Endorsement Forms CG 20 37 07 04 and CG 20 10 07 04.
- B. (River Rest, LLC, Wildlife Lands, LLC) For purposes of the indemnity provided by the STATE pursuant to Section III of the Agreement, the term "GRANTOR" shall include not only GRANTOR, but also all managers, members, agents and representatives (collectively the "Representatives") of the entity except for actions by such Representatives that are beyond the course and scope of their duties to and/or engagement with GRANTOR or for which such Representatives have engaged in intentional or wrongful misconduct. However, nothing herein shall be construed as indemnifying or holding Grantor or any third person not a party hereto harmless against the fault or negligence of Grantor's Representatives.
- C. Contractor working on LL&E property shall maintain in full force, during the entire existence of this Agreement, Workman's Compensation Insurance in an amount necessary to satisfy the minimum requirements of the laws of the State of Louisiana.
- D. (Phillips 66) Notwithstanding anything to the contrary in Section II of the Temporary Easement, Servitude and Right-of-Way Agreement ("Agreement"), and to clarify the meaning of "reasonable notice" as set forth therein, the STATE, through Contractor, agrees to notify GRANTOR on or before the seventh (7th) day preceding any entry onto said Lands for any non-emergency operations by STATE, its agents or contractors. In the event an emergency requires that STATE, its agents or contractors, to immediately enter said Lands, STATE shall make all reasonable efforts to notify GRANTOR of such entry. In either case, such notification shall include time of entry, anticipated duration on said Lands, the location or locations of operations, the type(s) and number of equipment involved and proposed routes to the location or locations of the operations. STATE, its agents or contractors, shall comply with any reasonable request of GRANTOR to alter the routes to be used from public roads to the location or locations of the operations.

- E. (Phillips 66) The term “GRANTOR” as used in Section III shall include not only Phillips 66 Company, but also all its parents and affiliates, and each of their respective employees, officers, directors, agents, representatives and contractors (collectively called the “Indemnified Parties”). To the extent permitted by Louisiana law, the State, through Contractor, shall indemnify, and hold harmless GRANTOR from damages, any and all costs, damages, causes of actions, and liabilities of any kind or nature arising from the Project to the extent caused by the acts, omission, negligence or fault of State, or Contractor, or its agents, employees, contractors, successors, assigns or transferees; however, nothing herein shall be construed as indemnifying or holding any Indemnified Party harmless to the extent that any such damages were caused in whole or in part by an Indemnified Party or by a third party not a party to this Agreement.

III. Pipelines

Pipeline Provisions

- A. The Contractor shall notify all pipeline companies at least seventy-two (72) hours in advance of any construction Work. All pipelines located within 150 feet of the dike alignments, marsh fill areas, borrow area, excavation area, and sediment pipeline corridor shall be probed and their locations marked, prior to excavation and/or installation of the sediment pipeline, for the duration of construction activities. No excavation shall be permitted within 50 feet of any pipeline. It is the Contractor’s responsibility to locate all pipelines for purposes of determining areas where excavation is not permitted.
- B. NOTE: Special care and extremely close coordination by the construction contractor with the pipeline companies will be crucial in order to avoid impacting the pipelines within or near the project area. Due to the extensive numbers of oil and gas lines in the area, and the limited time available to obtain landrights coverage for same, the contractor(s) will need to acquire any permission for crossings of lines outside of those that may not have been previously found/covered. It is recommended that confirmation in the field, including, but not limited to, use of a magnetometer survey/s be a requirement of the contractor/s to ensure that any lines in the area are identified and will not be impacted. Dredging over any pipeline rights-of-ways may be permitted with consent from the pipeline owner/operator. The conveyance pipeline will need to be floated over pipelines that may potentially be impacted by same. Verification of pipelines, their depths and draft of the equipment to be used will be essential. The assumption resulting from current investigations does not include oil and gas operations that might commence in the future.

The construction contractor will also need to contact Louisiana One Call at (800) 272-3020 at least five (5) business days prior to construction.

This landrights completion memo will be sent to you in “pdf” electronic format, which we request that you forward to project team members and any federal partners you deem necessary.
